

Cherry Blossom Suite

Information for relatives

Aintree Hospital

Carer and relative information

We recognise that you are currently spending an extended period of time in the hospital with your loved one; as such we would like to provide you with information about facilities available to you.

The Cherry Blossom Suite is predominantly a facility for loved ones who are spending a significant period of time at the bedside of a patient who is recognised to be in the last days of life, however, the room may also be used by carers of vulnerable patients such as those with a disability or dementia diagnosis for whom you are providing additional care to whilst in hospital. You are under no obligation to use this facility, but it is potentially an option should you wish to do so.

The Cherry Blossom suite is a comfortable, calm space, located on the first floor near the chapel/multi-faith room, here you will be allowed privacy, complementary light refreshments, a wheelchair accessible shower facility and complementary toiletries should you require these. There is also a small selection of children's activities that you are welcome to use. Children under the age of 18 must be supervised at all times.

If you would like to take a short break away from the ward, please inform a member of ward staff who can enquire about availability with reception. You will be directed to attend main reception at the front of the hospital, where you will be provided with a key to the room which is on the first floor above reception (the door is signposted). Time is limited in the room for up to 90 minutes to allow for other families to also use this area, we politely ask that you lock the room and return the key to reception within this time.

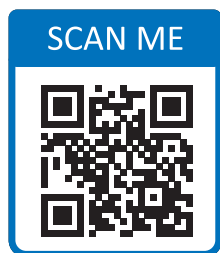

Should you require a phone charger, please ask at reception when collecting the key and return it when you vacate the room.

There is an information board in the room which provides you with details in case of an emergency.

Occasionally, a trained volunteer may call in the room to offer support if needed. This area is not for patient use.

Liverpool Hospitals hope that this facility provides you with some comfort during this difficult time.

We value your feedback regarding these facilities. Your responses will help us to know what works well and how we could improve. We would be grateful if you could spend a moment to provide feedback either using the QR code or link <http://ratenhs.uk/cSR1Bw> or by completing a feedback card that is provided in the 'Cherry Blossom Suite'.
